

National Apprentice and Industrial Training Authority

Special Industrial Training Division

**List of Qualifications and Related Field/Industry list for application for the External Appraiser
Second round.**

Annexure – 1

01. Qualifications & Experience

No	Academic / Professional Qualifications	Industrial Experience
01	A first degree in the attached list of fields and Postgraduate qualification in relevant field and Relevant Professional Institutional membership as an additional qualification.	At least 05 years of executive experience in the relevant industry.
02	National Diploma / Higher National Diploma equivalent to NVQ level 06 in the fields of list attached herewith. and Relevant Professional Institutional membership as an additional qualification	At least 15 years of post-diploma industrial experience including managerial positions.

02. Field / Industry

- Accountancy
- Aesthetic Art
- Aeronautical Engineering
- Agriculture
- Agriculture & Entrepreneurship
- Agriculture & Environmental Technology
- Agriculture & Plantation Engineering
- Agriculture & Plantation Management
- Agriculture Technology
- Agriculture Production Technology
- Aquaculture & Aquatic Resources Management
- Automobile Technology
- Automotive Engineering
- Bioenergy Technology
- Biomedical Engineering
- Bioprocess Technology
- Biosystems Technology

- Building Services Technology
- Business Administration
- Business Economics
- Chemical & Process Engineering
- Chemical Engineering Technology
- Civil & Construction Engineering
- Civil & Environmental Engineering
- CNC Technology
- Commercial Green Farming Technology
- Computer Engineering
- Computer Science
- Computer Science & Engineering
- Computing and Information Systems
- Consumer Science & Production Technology
- Construction & Building Services Technology
- Construction Technology
- Cosmetology
- Data Sciences
- Drafting Technology
- Drug Discovery and Development
- Earth Resources Engineering
- Electrical & Electronic Engineering
- Electrical & Electronic Technology
- Electrical & Information Engineering
- Electrical Engineering
- Electronic & Communication Engineering
- Electronic & Telecommunication Engineering
- Electronics
- Electrotechnology
- Energy & Environmental Technology
- Environmental Technology
- Event Management
- Facilities Management
- Farm Machinery Technology
- Fashion Designing
- Food & Environmental Technology
- Food Processing Technology
- Food Production Technology
- Food Technology
- Geotechnology
- Industrial Automation & Robotics Technology
- Industrial Biosystems Technology
- Industrial Management
- Information and Communication Technology
- Instrumentation and Automation Technology

- Jewelry Designing & Manufacturing Technology
- Livestock Production Technology
- Logistics Management
- Management & Technical Sciences
- Manufacturing & Industrial Engineering
- Manufacturing Technology
- Marine Engineering
- Maritime & Logistics Technology
- Material & Nano Science
- Material & Process Technology
- Material Technology
- Materials Science & Engineering
- Mathematics, Mathematical Modelling and Statistics
- Mechanical Engineering Technology
- Mechanical & Manufacturing Engineering
- Mechanical Electro Technology
- Mechanical Engineering
- Mechanical Engineering Technology
- Mechanical Technology
- Mechatronics Engineering
- Mechatronics Technology
- Media Arts Production Technology
- Multimedia & Web Technology
- Network Technology
- Network Technology & Cyber Security
- Pneumatic & Hydraulics Technology
- Project Management
- Post Harvest Technology
- Polymer Processing Technology
- Psychology
- Quantity Surveying
- Refrigeration & Air Conditioning Technology
- Sea Food Technology
- Social Sciences
- Software Engineering
- Software Technology
- Survey Sciences
- Sustainable Technology
- Teaching English as a Second Language
- Textile & Apparel Engineering
- Textile Engineering
- Transport & Logistics Management
- Welding Technology

03. Except “English Language”, teaching experience will not considered as industrial experience

•
